

Proposed Labor Legislation Is A Threat To Glades

Contact Your Congressman If You're Agin' It

While the growers and shippers of Florida vegetables face many serious production and marketing problems, the most drastic threat to the welfare of the industry is offered by proposals now pending in the Congress to change the labor laws of the nation in a manner that would directly increase the cost of preparation and marketing, and indirectly boost the cost of producing these products.

These proposals include: (1) Repeal of the Taft-Hartley Act. This would remove the present ban which has prevented a repetition of the secondary boycott strikes that paralyzed northern produce markets before this law was enacted. The repeal would allow labor unions to more actively attempt to organize agricultural workers.

(2) Widenning of the Social Security laws to include household and farm workers. Every farmer and packing house operator would have to keep a complete payroll record of each individual worker, and pay to the Social Security fund a one to four cent one-cent payroll tax on the worker's earnings.

(3) Enactment of a new "Fair Labor Standards Act" which would set a minimum wage would be raised from the present 40 cents to 75 cents per hour (or to \$1.00 under wage orders issued by the Secretary of Labor); (b) the coverage of the wage-hour law would be extended to include all workers "affecting commerce"; and (c) the penalties of the law violator—however innocent he might be—would be increased to permit the Secretary to levy on his property to pay all wages due and penalties assessed.

While the definition of "agriculture" in the new law would remain as at present, the number of the exemptions now granted to agriculture would be either eliminated or greatly restricted. At present, 14 of the workers are exempt from the law, but packing house workers are not.

Many packing houses are exempt because they are in the "area of production." This provision would be eliminated from the new law.

Packing houses which do not have the "area" of exemption do have the right to 14 exemptions. The maximum hours during which the maximum hours do not apply at all, and to 14 hours per week in the restricted exemption.

Committee amendments have been offered in both houses. Continued on page 8

Local Boys Go Fishing Down To Everglades City

Walker Fears, Joe Murphy, Bob and Paul Hughes formed a quartet of fishermen who tried to catch a few big ones at Everglades City, Sunday. Both Walker and Bob landed sizeable size snook at each of the locations.

Rough weather on the big lake kept fishing down somewhat over the weekend and Sunday morning saw record-breaking fish weighed at its dock.

Jack Brown, of the Browning station, whiffing a plug over in the Lake port section, tangled up with a fish which is now leading for the present month in the Parrott and Davis fishing contest, weight five pounds and three ounces, caught on a Dalton Spice plug.

Citizens Cautioned Against Robberies

A warning is issued by Constable Ray Whitlock to all citizens to take precautions against robbery by locking all doors when they are away, or at night. There has been two cases this week, one in which a woman was robbed while driving a screen window, said Mr. Whitlock.

Also do not leave your keys in your car at any time. A few simple precautions may save you loss of valuable property.

REGIONAL DIRECTOR ARC VISITS GLADES

Mr. Allen J. Carter, Regional Director, American Red Cross, of Atlanta, Ga., accompanied by E. Tinsley Hatter, County Executive, of Palm Beach County, Secretary of the County Chapter and department heads attended a meeting of Red Cross workers at the County Chapter building on Wednesday night, at the Country Club of the Everglades.

Mr. and Mrs. Mills prepared and served a dinner before the meeting was officially opened to more than thirty persons. Mr. Carter explained the purpose of the meeting in an opening statement asking for discussions of the purposes of the Red Cross Chapter and suggestions as to how best improve the advantages of the Red Cross.

Mr. Carter brought a discussion of the national scope of Red Cross, its problems and its services. He also discussed the purpose of the meeting in an opening statement asking for discussions of the purposes of the Red Cross Chapter and suggestions as to how best improve the advantages of the Red Cross.

A lively discussion was held following questions propounded by several. The furnishing of trains in the Glades for evacuation was discussed by Mr. Ralph Blank, Chairman of the Southeast Florida Safety Committee, who explained the workings of the train and that they were placed at the disposal of the Committee free of charge by the railroad.

Mr. J. B. Grant, Mrs. E. W. McLeod, Miss Althea Lomax, Mr. Ted Daniels and Mr. Phil Sevier, Mr. and Mrs. Ralph Freeman, Henry Earwood, Mary Fox and the Rev. Vandewater were among those present.

Scouts Run City Hold Mock Trial

The Scouts had a big day Saturday. The took over the city at eight that morning and held office till noon.

Scout Mayor Merton Rashley held a commission meeting with the Scouts. Present were: Fears, Leavitt and Fels. Several city ordinances were passed including one prohibiting the wearing of slippers on main street by all women between one and 100.

Later in the morning a "Kangaroo" court was presided over by Judge Johnny Price. The defendant, Lester Rudy was found guilty of parking in a no parking zone.

The acting police did a thorough job of giving out parking tickets. The Fire Department answered several calls on the fire truck. Each Scout taking part was suitably and jailed for his part in the City administration.

That is not all. The Scouts had a lot of fun but they felt that they had learned a great deal from the government. They also wished to express their thanks to the city for making this Scout Day possible.

Northern Group Of Farmers To Visit Townsend Farm

Local Agronomist Throwing Open His Farm Plots For A Field Day Inspection

Most people in the Glades know that Dr. George Townsend, of the University of Florida, is a business of his own along his specialized lines, but there are few who have intimate knowledge of what he does in his work. An opportunity for all interested persons to have an eye view of what he does and how he accomplishes his work will be given at his ten acre trial plot out on the Tabit road, at an open field day on Tuesday afternoon, February 24th, at 2:30 o'clock.

On this day, Dr. Townsend will be guest of a traveling company of 50 to 60 northern agriculturalists who are making a bus tour of the state of Florida. Dr. Townsend will have with him a number of his specialized crops, such as sweet corn, cauliflower, onions, and other varieties of the vegetable and fruit crops.

Also do not leave your keys in your car at any time. A few simple precautions may save you loss of valuable property.

Vegetable League To Fight Strongly For Market Rights

Good weather conditions continued during the past week in the Everglades farming section, and the season is getting well toward the period when we can expect no frost, it is being hoped that no disaster will visit the crops.

Local packing houses are working in a limited way in the handling of celeriac, and the first of the season's crop will continue to be very satisfactory. There was a day in the past when snap beans provided most of the business for the Glades, but as more and more diversified farming crops are being raised, the business has taken a second rating. Time was that the railroads lead, but trucking has cut in on this business, and now the business is given to 40 to 45 percent of the business.

Local Store Set For Heavy Sale Of Tubeless Tire

Simultaneously with the disclosure in Belle Glade that the new Seal-Mate Tubeless tires of the F. Goodrich Company is now being sold in the Glades for the first time in this area, at the Parrott and Davis Station, the company's Glades area representatives are ready to sell them next week.

Parrish and Davis revealed that they have the new Seal-Mate tires in the Glades for the first time in this area, at the Parrott and Davis Station, the company's Glades area representatives are ready to sell them next week.

Master and Warden's Association To Meet In West Palm Beach

The February Meeting of the Masters and Warden's Association of the 22nd Masonic District, will be held in the hall of Harmonia Lodge in West Palm Beach, on Friday night, at 8 o'clock. Glades Masons are planning on attending in goodly numbers from the Belle Glade and Pahokee lodges.

Ladies Day Has Record Attendance

Ladies Day at the Country Club of the Everglades was well attended Friday, by 40 members and their guests. Following luncheon, a business meeting was held which was devoted to the final plans for the benefit buffet dinner that the ladies are having on Saturday night.

At the conclusion of the afternoon golf games, Mrs. W. Weeks and Mrs. Bennie Weeks were in the lead, and Mrs. Ruth DeLoach was runner-up. Mrs. Jones led with high scores in bridge.

Onechobee Waterway

By request of the Army Engineers, the Red Cross in West Palm Beach was a guest and gave a brief talk. Among guests and new members were: Mrs. Tom Kirk, Mrs. Curtis Chase, and Mrs. Charles Murray. Mrs. Lewis Friend, Mrs. Robert DeLoach, and Mrs. H. O. Carlson, Mrs. J. Rudy Faulk, and Mrs. C. F. Jackson of this city.

Police Court Docket Filled With Many Cases of Cutting

The city police department officers were enriched to a considerable amount as the result of Judge Jack Johnson's court hearings on Monday night. The Judge had an unusual number of "cutting" cases one prisoner being charged with assaulting a woman, chasing and cutting another one, and wounding a dog with a knife. The Judge was very attentive to the details of each case.

Luther Johnson and Woodrow Rowlett, close friends after "hepping up" out of a common bottle, made a shambles of their room, in a pon bottle throwing contest, and each had head wounds.

Charles Brown who had a four arrest record against him, will not get out of jail until he has paid a \$50 fine, for falling off the water wagon after he had promised the Judge that he would be a good boy. The case was given no reason why he had failed to keep his promise.

City To Purchase Dusting Supplies By Bid Contract

The city commission held a long drawn out session, Wednesday night, February 9, in which numerous items of business, took up long discussion. The gist of these transactions consisted of the following: Sanitary Policeman Willis presented a report on matters pertaining to city dusting, and the City Engineer, Mr. J. H. Johnson, reported including mixing formulas for dusting and spraying. It recommended dusting with 3 cent DDT, 10 cent DDT, and 10 cent DDT, requiring from 4000 to 6000 pounds of dust, and occasional dusting up to 12000 pounds.

Win Games From Rival Counties

Our Golden Rats basketball team for the second time this season met the Ft. Pierce Eagles, Friday night, and hung in there with the score of 44 to 28. The Rams led 24 to 11 at the end of the first half, but the Eagles could not hold their own with the defense of scoring system. The second game was played here because the "Pierces" do not have an enclosed court.

On Tuesday night, on the local court, the Rams kept up their winning pace, giving the Pahokee Blue Devils a sound thrashing by the low sided score of 61 to 31, it being the Rams who were the victors in the game. The Pahokee was entirely impotent against both the offense and defense play of the Rams.

Master and Warden's Association To Meet In West Palm Beach

The February Meeting of the Masters and Warden's Association of the 22nd Masonic District, will be held in the hall of Harmonia Lodge in West Palm Beach, on Friday night, at 8 o'clock. Glades Masons are planning on attending in goodly numbers from the Belle Glade and Pahokee lodges.

Morrison Field To Stage Big Fair For Our County

Displays Will Be Large And Lush Showing All Lines of Productivity of County

Preliminary plans of exhibition and entertainment for the huge fourth annual Palm Beach County Exposition were announced today by the co-sponsors, West Palm Beach Chamber of Commerce and County Resources Development Board. The fair that is to be held March 3 to 12 (except Sunday) will run from 9:00 a.m. to 10:00 p.m. It is believed that the estimated attendance of fifty thousand persons who witnessed the Exposition last year will be surpassed because of the added facilities and larger number of exhibitors.

Displays of local, state and national character will be housed in the County Auditorium, formerly Base Headquarters Building, at Morrison Field on Belvedere Road. Over an acre of exhibits, all under one roof, including the County School's display in an adjacent building, will be offered to the residents and winter guests of Palm Beach County. With exception of feature displays of educational value, such as the State Forestry Exhibit that will be here in fact from the Florida State Fair in Tampa, the Exposition has limited occupation of space to the manufacturers and distributors of products and services, including agriculture, of Palm Beach County.

A separate entertainment lounge has been provided between the two main buildings. Palm Beach district will feature a display of movie films by the exhibitors. In addition to the many exhibits of home building, modern custom built furniture of local origin in wood, rattan and leather, will be a cross section of the county's products. The exhibit will include a complete home built in half sections to show a new concept in architecture and design. The exhibit will be devoted to the latest electrical devices sponsored by the Electric Dealers Association of West Palm Beach, business machines, sporting, hotel and refrigeration equipment, and a large display of fish, live, mounted and hydroponic displays, and for the first time, showing of the Glades agriculture, such as snap beans, cauliflower, etc.

Exhibitors have planned elaborate displays in cooperation with the sources of supply. The County District will feature the first time in the County. The County District will feature the first time in the County.

The County District will feature the first time in the County. The County District will feature the first time in the County.

Band Concert To Be Held Sunday

The Belle Glade School Band will present a concert at the County District on Sunday afternoon at 3 o'clock. There is no charge and the public is invited to attend, according to an announcement by Director Payne.

No Childrens Clinic Next Week

The Crippled Childrens Clinic which is conducted here at the local hospital each week will not be held this Tuesday, but will be resumed next week.

Woman's Club Adds Five New Members

With everyone singing "Sweet and Lowly" accompanied on the piano by Mrs. Z. T. Ingalls, the Woman's Club opened their regular meeting Wednesday afternoon. Mrs. H. J. Bratley gave the business report on the topic "Liturgy, The Bible".

New members, Mrs. Tom Watson, Jr., Mrs. Harry Schug, Mrs. Dora May, Mrs. Mary Lang, and Mrs. C. Figueroa were voted into the Club. A business meeting was held in the amount of membership dues with a referendum vote being cast. All members who have not paid their dues are requested contact Mrs. Karl Campbell and cast their vote so that this decision may be made at an early meeting.

A letter of resignation from Mrs. Ben Fleming was read and regretfully accepted. The program was given by Mrs. David Stoddard who played piano solos, "Old Croole Days" from the "Milk and Honey" and "Flashies" by Bix Birdenbeck. "Deep Purple" by Peter DeLoach and "Flashies" by Bix Birdenbeck. "Deep Purple" by Peter DeLoach and "Flashies" by Bix Birdenbeck.

Prell's Broadway Shows Attract Carnival Crowds

The Prell Broadway Carnival shows, which is exhibiting on the Rader show lot on West avenue E, began arriving in the Glades with the first parade coming from Ocala, where it had staged its first engagement of the year. This is one of the largest carnivals on the road, and its equipment seems to be adequate and complete in every respect.

Owing to the softness of the muck on the local show grounds, the placement of the various exhibits was held up, and the parade of bogging down of the heavy trucks, and this delayed the carnival.

Buffet Supper For Public Saturday Nite By Golf Club Ladies

The ladies of the Country Club of the Everglades have decided that maybe so if they tried to help themselves to some "fannin' game" about what they need, or want, these things might come sooner if they try to help themselves. So, the ladies, under the leadership of Mrs. Ruby Kirk will have a buffet supper Saturday night when they will prepare and serve themselves for a Buck and a Half per guest. Besides the excellent food and the charming waitress, the Belle Glade "Story Musical Muskettes" (Mrs. L. L. L. Doe and Neil D. Tompkins) will render singing and dancing for the dance following, for when there will be no charge.

General Revenue Fund Is Urged As Proper Source For Flood Funds By RDB

Beacham and Elliott As Committee Member Given Request

John R. Beacham by appointment the Chairman of the Governor's Citizens Committee will attend a meeting in Orlando Monday as Chairman of the Board of Directors of the RDB for further consideration of the probable source of the \$3,125,000 necessary as a local contribution to the overall Flood Control Program.

B. Elliott is a member of the Executive Committee of the Citizens Committee, and is therefore, in a strategic position with the Committee.

The two gentlemen received a positive recommendation from their respective constituents Thursday night, when the Board of Directors of the RDB asked that "the general revenue fund of Florida be the source of whatever State assistance is authorized, and that this recommendation be made either in lieu of or in addition to the suggested constitutional amendment for a state-wide levy of ad valorem taxation."

A resolution urging this position was unanimously passed after Turner Wallis, Vice Chairman of the Flood Control Committee, presented a detailed report on the recent trip to Tallahassee.

Mr. Wallis offered the resolution and after brief comments, it was unanimously passed. Announcement of an ex-Corn of the RDB's Flood Control Committee was made, and the resolution empowered this group to make whatever recommendations to our Legislature are authorized, and as feasible. The executive Committee is composed of Luther Stiles, Chairman, and J. B. Vice Chairman, and R. Y. Patterson.

John C. Slick, Chairman, presided at this meeting, with Directors Kenneth Lutz and Luther Jones in attendance.

Government by the People is a Delusion.
(By Edgar Pennington Young)
Constitutional Government is by far and wide the most efficient ever devised by man.

America grew and prospered by and through such a Government.
But when a small but powerful group of Foreign Bankers came to America and secretly manipulated a large portion of our Daily newspapers; our Educational Systems; our Radio; our Politics; our Labor Unions; the issuing of our Currency; our Moving Pictures; and even invaded many of our Religious Organizations; and sold glibly to the American people the falsehood that we had become too great to continue the policy of our Forefathers to avoid European wars and stay home and mind our own business;—then and there America began to go down hill.

Every President of the United States from George Washington to Woodrow Wilson adhered to the policy of the Founders of this Republic.

Wilson exerted every effort to put over The League of Nations but failed.

The United Nations,—which is nothing under the sun but the League of Nations in Sheep's Clothing,—has now become a reality.

If the hidden schemes of the United Nations succeed the International Bankers will secretly control this outfit which means they will control the World.

When our National debt totaled Fifteen Millions an awful howl went up. The departure from the Policy laid down by our Forefathers has resulted in a debt exceeding Three Hundred Billions of Dollars, a Billion and a thousand Millions.

It is doubtful if the United States would bring Three Hundred Billions if put on the Auction Block and sold.

Our Nation is bankrupt and our so-called "Statesmen" at Washington are giving away the few remnants that remain.

Before a Nation can be taken over it must be destroyed. Russia was only captured by these same Bankers after years of outside meddling. The outcome was the Russian Revolution and the height of which these Bankers stepped in and took control.

The plight of America is desperate.

Every way of reaching the people is in the hands of the Enemy.

Our Government claims to be "of, for and by" the people. It is "for" the people, but not "of" or "by" the people.

When our Nation was small our people held to a strict accountability those they elected. But it is so no longer. They go to the polls and vote and that is the end of the matter.

As the Nation grew this Policy increased until to-day it is almost absolute.

At a recent Annual Dinner of the Pennsylvania Manufacturers' Association United States Senator Edward Martin made the following statement:

"Americans must know more about their Government, and take a greater interest in it,—if it is to endure. The great weakness of our Government is not the Form of the Government, but how little the voter knows about it, and the small part he takes to preserve it."

It is not time to come to an end of this Baal worship of some thing that simply doesn't exist?

To run, or even dream in vital matters, the Government of the United States is a task the people are in no way qualified to undertake. They have even become unable to select representatives who will go to Washington and properly represent them.

Our people should be protected from designing themselves into the plain truth of the matter is Members of both House of Congress do not represent the people in the sense of carrying out their wishes in the various measures for which they are contented. They proceed to advocate a program of their own making and are applauded or criticized by but a tiny fraction of the electorate.

At the same dinner the Governor of Pennsylvania, James H. Duff said:

"We are seriously failing in our attitude toward National problems whose solution will largely determine our future. We must not forget that our Government was established on the basis of a Rural and Agrarian economy, while the vast and complex problems of to-day arise out of an economy that has become in the main, both Urban and Industrial."

What the Governor really said is the Constitution, which was adopted in 1776, does not cope with our modern set-up.

The crowd who are out to capture America have opposed every effort to revise the Constitution and make it applicable to present day requirements.

Here is one glaring example:

When the Constitution was adopted there was no such disease as Communism.

The preaching of Communism in America is Treason if there is any such thing.

Article III, Section 3, of the Constitution declares:

"Treason against the United States shall consist ONLY in levying war against them, or in adhering to their enemies, giving them aid and comfort."

Such an idiotic definition of Treason, and the Monstrosity we worship as "Free Speech," gives the Communists the sweet privilege to stand up within this Nation and preach their hellish doctrine.

To give Communists and other radical Trash added power over our Constitution, the Unfathomable, for Congress, in Article I, of the Bill of Rights, to pass any Law prohibiting the use of Free Speech.

A government which protects by Law, and extends to Communist Traitors the right to publicly expound Communism is a Government at all. The same provision permits the publication of Communist newspapers all over the United States.

The open and avowed objective of Communism is to bring down in Ruin and Revolution every Nation in the World not committed to Communism.

At the Manufacturers' Dinner O. J. Tallman, Majority Leader of the Pennsylvania State Senate, made this amazing statement:

"Aside from Election time, we at Harrisburg SELDOM HEAR FROM THE PEOPLE OF PENNSYLVANIA AS A WHOLE, OR EVEN AS A CLASS."

Are we to continue this senseless chatter about "preserving the American Way of Life," or are we to face the Truth and admit that Government "by the People" is a meaningless Myth? And are we going to do something about it before it is too late?

There is just as much sense in passing a Law making it

FOOD...through the ages...

PRIMITIVE MAN WHEN LUCKY ENOUGH TO KILL A SICK OR WOUNDED MASTODON OR WOOLLY RHINOCEROS, GORGED HIMSELF AND LIVER FIRST.

NAPOLEON LOST THE BATTLE OF LEIPZIG (1813) WHILE SUFFERING INDIGESTION FROM TOO MUCH MUTTON WITH ONION STUFFING.

legal to steal, Rape and Murder, as to legally extend to Communists the right to openly preach their vile Philosophy committed to destroy this Nation.

Is it any wonder that our own State Department at Washington contained and coddled such as Hiss and Chambers?

Our worthy and Patriotic Representative, Dwight L. Rogers, has recently made the attempt to arouse his constituents and express their attitude with regard to 17 important matters.

This Questionnaire includes such vital questions as "What do you think Congress should do about the Taft-Hartley Act?" "Do you think Congress should pass a Law establishing Price Controls?" "Would you favor the re-enactment of the Wagner Labor Act?"

Mr. Rogers should be commended for engaging in such a worthy enterprise. It clearly establishes that he is deeply concerned about the lack of interest shown by those he represents. He has taken this means of arousing them from their deep slumber.

Only a right-about-face will save America from absolute ruin.

Both Houses of Congress are composed of over 500 wrangling Politicians.

This is not Government. It is Babel.

News Of Belle Glade Negro Schools

By Negroes—For Negroes

Patrol Group Given Safety Instructions

On Tuesday and Friday of last week, Police Officers Rhudy and Prescott met with the Safety Patrol Club and gave the club important safety instructions with regard to traffic duty, as well as in and around the school. The club listened eagerly and attentively, asked a few questions that were answered by the officers, and since the meeting has done a much better job. The club as well as the entire school is grateful for the information received from these officers and for the support of the Belle Glade Police Department.

School To Render Community Hour Program

The pupils and teachers of Belle Glade Elementary School will render a program on Sunday afternoon, February 20, at the First Baptist Church. This will be one of the monthly programs sponsored by the Men's Civic League.

Fifth Grade Organizes Reading Club

The fifth grade has organized a reading club. The purpose of the club is to motivate interest in better reading, and library.

N. F. A. and N. H. A. Attend South Florida Fair

Much credit is due Professor B. G. Salvo, Principal of Everglades Vocational High School who made it possible for Mr. J. J. Holiday, Vocational Agriculture Teacher, and Mrs. L. W. Childs, Home Economics Teacher, both of his school, to accompany forty students to the South Florida State Fair at Tampa, Florida on February nineteenth. The trip was in educational tour for the boys and girls, and something they will long remember. Since that time there seems to be much interest in the subject of the trip. Of this kind somewhat made out students' outcome more

success to compete with other schools in various sports contests. The students highly appreciate the fine way their instructors are striving to make it possible for them to do and see what other schools in the state are doing. With the cooperation of our fine patrons of our various communities we can make Everglades Vocational High School rank with other schools in this county and in this state.

CINEMATIC CHATTER

One of the most delightful comedies of the week will be found in "Good Sam" which is presented at the Hugo Theatre, this Sunday and Monday.

"Good Sam" is the story of an average American couple,

in the featured cast are Ray Collins, Edmund Lowe, Joan Loring and Clinton Sandberg, all of whom turn in faultless performances.

I am quite sure you will agree with me, "Good Sam" is one of the cleanest and most hilarious comedy dramas you have had the pleasure of sitting thru in some time.

See you at the movies... Mal.

Career-Minded?

These words are addressed to young men who want to be the leaders of tomorrow. It is addressed to ambitious men who are truly career-minded, and to those merely interested in a job. To these ambitious men today is offered the greatest chance for advancement in the nation's history... a career in the new U. S. Army or U. S. Air Force. These organizations—representing the biggest business in the world—share opportunities unshared anywhere. Find out yourself, in a frank talk with your recruiter. Meet at the U. S. Army and U. S. Air Force Recruiting Station at 229 First Street, West Palm Beach, Fla. Hear recruiting sergeants, some of the finest men in the world, for final discharge as Adjutants General of the United States Army.

DATED this 18th day of February, 1949.

H. M. MCINTOSH, Administrator of the Executive Order of Henry V. Pedersen.

VEGETABLE LEAGUE

Continued from page 1

The Pompano farm sector vegetable movement has now reached its peak, and their efforts will be concentrated on the market, by the time the Glades growers begin their spring bean harvest. This should be the present favor to 2 bear prices. It will also remove a vital competitor to the local growers.

Local members of the Vegetable League, who attended the national convention in Pittsburgh, the past week, came back with glowing reports as to the size of attendance and the benefit to the program presented, and there will be some interesting information to be given to the Branch member at the next meeting.

This program was one distinctly on subjects relating to the growing and marketing of the business, ever throughout and formulated to make it more easy to battle against the numerous obstacles which are threatening the life line of business. The League is definitely going to battle to preserve the business interests of all League members, which now number near a half million, and that is a mighty formidable bunch.

The program was held in the evening at the League's headquarters, the various departments, ever throughout, were discussed, and with few exceptions, endorsed by the League. The League has been so critical that a number of the local growers, especially those operating limited acreage, have been brought in to bring their crops to maturity.

Loadings for week ending February 18, 1949.

1000 TELEPHONES IN NEW ZONE MARKET

Simultaneously with the announcement that the 1000th mark has been passed in phone installations in Belle Glade, comes the news that Mr. C. E. Jackson, manager of the Southern Bell Telephone and Telegraph Company in the Glades area for the past eight months has been transferred to Fort Lauderdale, Florida, and will hold an important position with the Company at this point.

Mr. Jackson has been succeeded by Mr. George H. Bachman, formerly of West Palm Beach, who has been in the telephone career with the Company in Nashville, Tennessee.

Mr. Bachman, who began his telephone career with the Company in Nashville, Tennessee, was transferred to West Palm Beach where he did important work in connection with the relocation of the equipment in the West Palm Beach area.

Mr. Bachman has family consisting of four children who are now in school in West Palm Beach, and will remain there after which the school term, after which Mr. Bachman and his family will reside in Belle Glade.

EMPLOYMENT OFFICE

BUSY DURING JANUARY

At the beginning of February there were 522 persons seeking work through the Belle Glade office of the Florida State Employment Service, according to A. M. Larimore, manager. Three hundred thirty-six of these persons were veterans and 69 were females. This largest single occupational group of unemployed workers was agricultural workers who have been unable to find steady work since the freeze early in January.

Placements made during the local office numbered 112 during January 1949, including 80 agricultural and 32 non-agricultural. Twelve of the non-agricultural placements made during January were veterans and 5 were women. In January 1948, 141 placements were made by the office, 103 of which were agricultural, and 38 of which were non-agricultural.

Applications for jobs and job orders should be made through the local office of the Florida State Employment Service, 125 S. W. 2nd Street. Job orders will be taken over telephone 2931.

FLORIDA ELKS TO

Continued From Page One

Announcement is also made that the South Florida Elks' Raffle will be held in the beautiful Ledge room at Ft. Lauderdale, on Sunday, March 6th, with most of the district's Elks participating. The Elks' schedule for hour presentation of the work will be at 3 o'clock.

District Deputy Ed. O. Williams is working hard, to see that the Elks' Raffle is a success. The Elks' Raffle is now being held at the home of Lou Bell, and she is announcing that the local Elks will have a large share of the contest, beginning next Monday night.

Four candidates were elected to membership on Monday night, and Dan O'Brien was given a dismissal card to unite with a New York City lodge, where he is now residing. The lodge gave its annual donation of \$75.00 to the Belle Glade Elks.

Much interest was shown by the members in the pictures taken on the recent Elks' Raffle, and the Elks' Raffle is now being held at the home of Lou Bell, and she is announcing that the local Elks will have a large share of the contest, beginning next Monday night.

State Industrial
Commission Now
A Huge Machine

Governor F. W. Warren's appointment of Raymond E. Barnes as the sixth Chairman of the Florida Industrial Commission is a story of individual progress in agency expansion in best American tradition.

Serving under every Chairman of the Commission since it was set up in 1935 to administer the Workmen's Compensation Act, Barnes was first associated with the organization as a law clerk in 1937. At that time, organization of the Commission was just getting underway and in the same year, the Florida State Employment Service and Unemployment Compensation division were added to the Commission.

Administration of such a vast program covering practically every worker in the State of Florida is the task assigned to Barnes, and one that is vastly different from the organizational job faced by Wendell Heaton, first Chairman of the Commission.

From Heaton and his staff of two workers housed in a small committee room in the Capitol, the Commission has grown into a new five-story building built to house its 250 workers in the central office in Tallahassee and throughout the State.

Growth of the Florida Industrial Commission has been rapid, and its employment security program directly affected more persons in the State than any other single State agency.

Between Heaton and Barnes, adding to the growth of the Commission, four men have served as Chairman, Harold C. Wall, Parks Glover, Boyce Williams and Carl B. Smith have played important roles in the development of this State agency.

Barnes is fortunate in having the sound organizational system, laid by Wendell Heaton as first Chairman. Each of the four succeeding Chairmen have been instrumental in bringing about the expansion of existing divisions and the addition of new departments to make the Florida Industrial Commission and employment security program which is mutually beneficial to employers and employees.

Commissioner King
Gets New Telephone
Zone for Wauchula

Proposed joining of Hardee of the northern part of Hardee county into a toll-free telephone area was hailed by Chairman Wilbur C. King of the North Florida Railroad and Public Utilities Commission as another move to enlarge telephone service to take in rural areas.

Just back from helping open the new dial exchange at Wauchula, the chairman said the Inter-County Telephone and Telegraph Company which serves that section plans to put the nearby community of Bowling Green and its rural telephone subscribers into the Wauchula exchange on a toll-free basis as soon as materials are available.

Some months ago he recalled, the commission asked all Florida telephone companies to join in reducing tolls and in expanding their lines into rural areas not now served. King said all have agreed, and some definite plans for these improvements are now being put in to effect.

Masons Hear Fine
Address by Dr.
John R. Wells

The regular communication of Belle Glade Lodge, No. 273, F. and A. M., February 8, was used largely for an educational hour with the Master L. E. Will, presenting Dr. John R. Wells, of Harmonia Lodge, of West Palm Beach, as the guest speaker. Dr. Wells and Mr. Will in youthful days were school mates in a Washington, D. C. school, and Will initiated Wells into the school fraternity.

Dr. Wells, an able speaker, in his excellent talk, outlined the formation of Masonry as it is Blue Lodge, York and Scottish Rite branches, and gave a brief review of the teachings of each branch, and the challenges of seeking each member's ship.

Mr. Will stated that as the next regular communication fell on February 22nd, Washington's birthday, and there was no scheduled degree work that evening, educational program would be presented. District Deputy Grand Master Irving Henshaw, in an unofficial capacity, will be the guest speaker, and will speak on "George Washington as a Mason".

Mayor Junior Harris and

Vice-Mayor Rubin were selected to represent the city at the annual session of the League of Florida Municipalities at 21, at the George Washington hotel.

Penny Wadding and other 11th grade contingents, which have always operated here as to come under the license regulation of the city, and such machines will be permitted to stand on city property, in case of accident, the city would be subject to liability. Owners and operators of such machines will be notified of this action, and that such machines will be moved at owners' cost.

The Marine Demonstration Club and the Belle Glade Women's club sent in protest letters against the action of permitting smoking in the movie theater house, against alleged disorderly action of children and the fact that the city is a dry town. These letters will be referred to the police department.

Police department is also planning the cleaning and whitening of the water tower, but as the same time holds a school, the work was referred to Councilman E. L. G. and Sunday Police will be for study and report on the best and lowest bid. Bids were for around \$1500 to \$2200.

Business Day at Wauchula Market

At the Wauchula stock mar-

ket, on February 24, at which time will be a display of blood or pedigreed Brahman cattle including some of the prize winners at both the Ocala and Tampa state fairs.

At noon there will be a free barbecue feast put on by Jim and Bob Robertson, operators of the Fender market. More than 100 Brahman cattle will be on exhibit and there will be a contest for the best of the breed. The contest will consist of the cattle judging contest, and to give information on cattle raising topics.

Grade Brahman shown will include calves, yearling steers and grown steers with native stock of similar ages also shown to illustrate the improvement possible with Brahman.

Representative of a meat packer will also give the type demonstration. An outstanding authority on Brahman will give the type demonstration on registered stock.

**THEY HELP THOSE
 WHO HELP THE PUBLIC**

As independent, professional auditors, Certified Public Accountants serve
 a host of useful organizations dedicated to public service, in addition to business concerns.

By audits of financial conditions and operations, CPAs' stand guard over
 the funds of hospitals, churches, schools, colleges and other institutions dedicated
 to the public welfare. CPAs are often able to point out financial dangers
 . . . suggest remedial action that can mean the difference between con-
 tinuation of valuable public services or their abrupt termination.

Hence the CPA's professional skill and experience makes him a "regular
 contributor" to maintenance of essential community services.

Interested readers are invited to send for the pamphlet "Why CPAs' Standards Are Im-
 portant to You." Address the Managing Director, C. Box 3422, University Station,
 Gainesville, Florida.

Palm Beach County Chapter

Florida Institute of Accountants

 Certified Public Accountants

This is the seventh in a series of institutional messages to the public.

OBSERVATIONS
 (Continued from page 1)
 ing food, for such variety can-
 not be claimed in any other
 state.
 It was demonstrated that peo-
 ple from every walk of life
 have a liking for animated ex-
 hibits. The Fish and Game De-
 partment, was one of the focal
 points of the fair and had
 there was always a long line
 passing by the water display,
 at the wild duck pen and into
 the little theater, where move-
 vices were presented depicting
 wild life in Florida. Conserva-
 tion is a big problem, and it
 must be practiced, if Florida
 retains all of its present re-
 sources.

The famed Borden cow "El-
 sie" with her son "Beauregard"
 were at the fair, and as a re-
 sult of advertising of the well-
 known brand of canned table
 milk, thousands gathered around
 the pens to see the famed "con-
 tented" animals.

The process of manufacturing
 cigars by machinery never
 failed during the day to draw
 immense crowds.
 In a rest seat, for old "dogs"
 do yet tired, the ever passing
 crowds gave opportunity to
 study the acts of humanity.
 One thing established that ev-
 ery one seemed to be more con-
 tented if they were eating a
 sandwich, nibbling a candy bar,
 an ice cream cone, pop corn or
 other confections.

When the Florida Press As-
 sociation meets in Gainesville,
 on March 18-20, it will be the
 guests of the management of the
 Gainesville Sun and the Uni-
 versity of Florida. The Asso-
 ciated Press will also hold their
 convention there on the same
 dates. It has been years since
 the Press Associations have met
 in Gainesville, and it is to let
 them know about our Great Uni-
 versity of Florida that these con-
 vention are held there. Reams of
 publicity is expected to emanate
 from this visitation. Entertainment
 features will be new and num-
 erous.

For many years the lowly

You never know when one or more
 of these common ailments may
 come along and interfere with your
 work or pleasure. So be wise—have
 a plentiful supply of Alka-Seltzer
 on hand for the quick relief it offers.
 Just drop an Alka-Seltzer tablet
 or two in a glass of water. Let it
 effervesce, then drink it. No shaking,
 no stirring, no trouble at all. At
 all drug stores.

When Your Tablets Don't Run to 4
 That's the Time to Buy Some MORE

Boy Scouts Map Their Health and Safety Program

Depicted on this "map" are some of the activities and skills promoted by the Boy Scouts of America aided by Health and Safety Committees of the 543 Local Boy Scout Councils of the nation. It is desired that Scouts enjoy their Scouting activities safely. Their training aids them to render service to others as well as to take care of themselves.

spud or potato has been under
 Government subsidy support,
 assuring growers a guaranteed
 price. It now looks as if the
 economy boys of the Govern-
 ment may eliminate this sub-
 sidy from under the spuds, as
 well as a number of other farm
 commodities.

South Carolina is the last
 state in the union to provide a
 law which would recognize di-
 vorce. Such a law was adopted
 by the legislature the past
 week, over the protest of a
 fighting ministerial association
 group. Divorces will not be so
 easy to secure as they are in
 our own state of Florida.

The Boy Scouts of America,
 which last week observed the
 celebration of its 29th organi-
 zation anniversary, made an
 unprecedented growth and re-
 cord of accomplishment. Its
 membership is now placed at
 2,220,000. During the year the
 Scouts collected a half million
 pounds of provisions for the
 Friendship train; collected 78
 million pounds of waste paper;
 near two million pounds of used
 clothing; circulated 5 million
 pieces of bills and literature,
 and planted 5 million trees for
 forest habilitation; and billions
 of good turns.

With a central located di-
 amond or softball play ground,
 good bleachers and lights, and
 fewer bugs in the so called win-
 ter season than the summer,
 Belle Glade people ought to
 have great enjoyment of the
 league games to be played in
 Paradise park.

Those who have been able
 to obtain minnow or fresh wa-
 ter shrimp, have been having
 a lot of sport catching "specks"
 out at the locks the past week.
 Worms do not seem to attract
 the appetite of the perch, but,
 oh, those minnow!

This was VFW carnival week
 in Belle Glade, and with the
 excellent midway attractions,
 patrons seemed to have a right
 joyful time, visiting the shows,
 whirling around in the riding
 machines, eating and partaking
 of soft drinks. Enjoyable man-
 ner in which to frolic in personal
 groups.

The Chamber of Commerce is
 to be commended in starting
 and getting promise of action,
 for safety improvements from
 the State Highway commission
 at the danger Six mile bridge
 curve on State Road 80, which
 has become a noted accident
 and death trap.

One reason and possibly the
 main one that the Bacom Point
 road at Pahokee, was placed on
 the State Highway program this
 year, in preference to other
 roads, was that it leads to the
 new county airport near the
 lake, now under construction.

Looks as if the Golden Ram
 baseball team might be quite
 a formidable one, this season.
 The lads are out to be win-
 ning the ball and getting their
 arms and legs limbered up.

City Commissioners and at-
 tending audiences at sessions
 are still awaiting the satisfac-
 tory installation of the loud-
 speaker system in the council
 chamber. Contractors indicate
 that same will be ready for the
 next session of the city dads.

The filling in of the grounds
 at the rear of the city hall and
 jail, provided a convenient place
 for city owned cars. A
 bit of filling in has also been
 done in front of the chief of
 police office.

City Commission has now pro-
 vided by means of an ordi-
 nance, the way whereby the
 Sanitary and Fire Chiefs, can
 enter proceeding to secure re-
 pairs, condemnation or demo-
 lishment of old, insanitary and

unsafe structures. New building
 projects, must come up to build-
 code specifications, of safer and
 sounder construction.

Commissioners Harris and Ra-
 bin are to represent the city
 at the Municipal League Con-
 vention in Jacksonville. Going
 on an information collecting
 junket.

Building operations in Belle
 Glade for some reason have ta-
 ken a sudden disappearance, as
 comparatively few permits have
 been taken out during the month
 of January.

Watchful waiting is the or-
 der of the day at Glades pack-
 ing houses these days, but when
 those beans begin to come in
 by the truckload there will be
 plenty of activity. Frost, frost,
 stay away, is the prayer of
 growers and packers alike.

City is repairing and re-pain-
 ting the concrete street signs,
 and putting up caution signs
 at intersections. The latter are
 warning against traffic viola-
 tions, and offenders transgres-
 sors are asking for an appear-
 ance before Municipal Judge
 Johnson, as Chief Goodlett has
 directed his officers to see that
 regulations are enforced.

With recreation and athletic
 centers planned for Paradise
 park, it becomes apparent that
 there will be need of a refresh-
 ment and candy bar, and the
 City Commission has voted to
 give the concession to the Girl
 Scout troops under their spon-
 sorship, who are under a statu-
 tory license. This stand will be
 in a portion of the new shel-
 ter house and there will be
 drinks, candies, and other food
 articles.

Hats off to our local honey
 man Floyd C. Markham in be-
 ing awarded first prize on his
 exhibit at the Tampa fair. He
 sure did have an excellent dis-
 play, which brought him many
 engravements.

Bass fishing on Lake Okeech-
 obee the past week end, drew
 the famous radio commentator,
 H. V. Kaltenborn out to try
 his luck with the bronze backs.
 Sorry, to relate, his luck was
 of the same kind the Republi-
 cans had in the recent national
 election.

Weather bureau men make
 the statement that the present
 season in Florida has been the
 warmest since 1914. We here in
 the Glades can subscribe to the
 truthfulness of the report. Some
 days like mid-summer.

The lads and lasses who own
 bicycles, and who use them
 mostly for transportation to and
 from school are flocking to po-
 lice headquarters, to get their
 machines tagged and registered.
 By this means their bikes, if
 stolen, will be easier to trace
 and identified as to ownership.

Insurance investigators state
 that if an implement is used
 about the farm, the pitchfork is
 the arch enemy, as more acci-
 dents occur from the neglig-
 ent placing of the tined fork,
 than any other.

It is getting harder and hard-
 er for all types of businessmen
 to make the grade and still
 have some showing of profit.
 With proposed increases of
 rates on railroad traffic ship-
 ments, proposed higher wages
 and shorter work hours under
 the proposed revision of the
 Wage and Labor law, and a my-
 riad of this and that increases
 all a long the line, does not
 make the picture any too rose-
 y for men in business and in-
 dustry. Are we becoming Russi-
 anized, where government takes
 all our monies, along with the
 grab made by the transporta-
 tion system?

Game Board Plans To License All Pole Fishers

The State Game and Fresh
 Water Fish Commission is danc-
 ing with the idea, to increase
 income funds, by placing a pole
 fishing license on every one, ex-
 cept persons under sixteen years
 of age, or over 65 years, and
 disabled veterans. At present
 fishermen need no license to
 fish with a pole in their own
 country. The proposed new job
 would be \$1.25, estimated to
 raise a half million dollars, to
 be used in conservation work.

Global Timekeeper

Many and varied are the func-
 tions of the century-old U. S.
 Naval Observatory in Washing-
 ton, D. C., but principal among
 them is that of timekeeper for
 the nation and its ships at sea.
 The WAVE in the photo is used

ELSIE'S CALF MADE HONORARY "FUTURE FARMER"

Tampa, Feb. 7.—On Future Farmer's day at the Florida State Fair in Tampa, Beauregard, the illustrious son of Elsie, the famous Borden cow, was made an Honorary Member of the Future Farmers of America. The formal ceremony was performed by State President Donald Burch, of Live Oak. State Advisor H. E. Wood (standing behind President Burch) and several Future Farmers watch as Burch places the official FFA cap on Beauregard. Florida officers of the FFA who attended were Vice-President James Sims, Palmetto; Coy Cecil, Allenton; Archie McKendree, Dade City; C. D. Moore, Bell; Joe Canney, Havana, and Aubrey Caruthers, Wildwood.

SUMMARY OF WHAT

(Continued From Page 1)

citrus to watermelons, from raising chickens to breeding the latest and newest methods as taught to them by specially trained vocational agriculture instructors.

Some of the schools operate their own farms, share operation with their parents' farm land, or work for other farmers in the community. Many of the young agriculturists work on the 21 chapter-owned farms in the state.

According to a report received from the State Department of Education, Florida Future Farmers earned more than \$700,000 last year from their farm work. With a capital investment of \$409,292 in farm lands, buildings and equipment the boys averaged earnings amounting to \$130 apiece. Many FFA boys earned as high as \$1,000 during the year.

Their contribution to general farm life in the state can be seen by the education department's report listing some of the FFA achievements. During and after school hours the Future Farmers till some 3,600 acres of soil. Last year they repaired about 361 farm machines and 6,841 pieces of farm equipment. They grew 1,513 home gardens, canned 342,532 quarts of foodstuffs and saved their money to the tune of \$4,811 in chapter-purchased U. S. Bonds.

In addition, they maintained over 2,000 acres of pine forests, constructed 193 miles of canals, had 42,929 faces in gum farming operations, and set out more than 1,600,000 pine trees during last year alone.

Most of the profits made by the boys were put back into farm enterprises as an investment in the future. The majority of Future Farmers are planning to stay in farming when they finish school.

The 6,300 Future Farmers, make up part of a total agricultural program in Florida schools enrolling some 11,000 students. The earned income for all vocational agriculture students amounted to \$1,047,558 last year. State School Superintendent Thomas D. Beyer reported last week. "Their income exceeded by \$300,000 the total of local, state, and federal funds expended on the program," Bailey said, pointing to the economic soundness of the farming program in Florida.

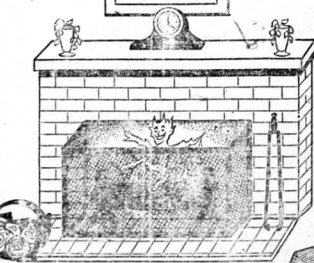

Pork Chops on the Hoof in Guam

On farms established by the U. S. Naval Government in Guam, American sailors instruct natives in modern agricultural methods. The produce from the farms is used for Naval personnel and the rehabilitation of the natives. In photo above, a seaman first class drives some pigs to feed.

FIRE FACTS

New Members of Florida's New Industrial Commission

Newly appointed members of the Florida Industrial Commission at their first meeting in Tallahassee, Chairman Raymond E. Barnes, Orlando, (center) representing the public; James H. Allen, Pensacola, (left), representing industry; and James A. Harper, West Palm Beach, (right) representing labor.

Agriculture is one of Florida's greatest sources of income. The value of the state's vegetable crops during 1947-48 was \$39,000,000. Other fruits, \$10,000,000; corn, \$18,600,000 and tobacco, \$18,100,000. Florida's youth has contributed materially to this record.

But many of the results of the vocational agriculture program cannot be reckoned in terms of money. It must be figured in the light of improved farm living, more scientific farm practices, better farm homes, better-grade products, and greater markets. The contribution of farmer training will continue to pay dividends as the boys grow up and become good citizens and producers.

The Future Farmers of today will be the Florida farmers of tomorrow.

It will be under their leadership that Florida will realize its fullest development as a agricultural state.

Churches in Local Visitation Day

Announcement is made by R. C. Gehlken, Jr., Manager of the West Palm Beach office of the Bureau of Old-Age and Survivors Insurance that the Visitation Day for February 22, 1949 requires a change in schedule for the February appointments in this state.

The field representative usually makes appointments for the Old-Age and Survivors Insurance at the Office of the Florida State Employment Service in Belle Glade on the fourth Monday of each month at 11:00 A. M. However, for this month of February only, he will be at the Office of the Florida State Employment Service in Belle Glade on Wednesday, February 23 at 11:00 A. M. Individuals 65 years of age or over who have worked in employment covered by Social Security, or their survivors, may meet their representative at that time to file claims or obtain information regarding their social security accounts.

Congregation of Presbyterians are Growing Rapidly

Dr. A. R. Larrick, executive secretary of the Home Mission of the Southern Presbyterian church, of Plant City, on Sunday night, conducted services and preached at the Everglades Presbyterian church, and also participated in a session of the church. Rev. Ryan Wood, of the Memorial church in West Palm Beach and Rev. Cummings of Riviera were also honored guests at the services and spoke briefly.

This church body has grown in membership in both the Sunday school and church during the past several months under the pastorate of Rev. Howard D. Denn, the former now enrolling 100; and the church roll in excess of that number. New members have been added the past weeks and on Sunday night Mr. and Mrs. George Thomas Parker, and Mr. and Mrs. W. K. Whitbeck were received into the church membership.

The congregation starting on February 23rd, will hold its mid-week prayer service and Bible study on Wednesday nights instead of Thursdays.

Odd Fellow Study Club Taking up Degree Work Study

A dozen members of Belle Glade Lodge of Odd Fellows have formed a study club, and are meeting at the homes on the first and third Thursday nights. The objective is to gain perfection in ceremony and degree work. The club was entertained on Tuesday night at the home of John M. Gledhill on SE Fourth Street. The lodge will have its regular session on the evening of February 24th.

State Board

The State Hotel and Public Utilities Board, after extended hearings, on applications of the Railroad and Truckers, for increased rates, at Tallahassee the past week, issued its findings, with these directives to the carriers:

(1) To forthwith file with this Commission appropriate tariffs permanently increasing its rates

BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY
INTERNATIONAL BIBLE BROADCASTERS

Question—Did Christ's incarnation annul His divinity?

Answer—"And without controversy great is the mystery of godliness: God was manifested in the flesh, justified in the Spirit, seen of angels, preached unto the Gentiles, believed on in the world, received up into glory." 1 Timothy 3:16.

Q—Do you understand the pre-existence of Christ before He was born in Bethlehem?

A—"No; but I believe it, because of such Bible passages as John 1:1; "And now, O Father, glorify Me with Thine own self with the glory which I had with Thee before the world was."

Q—Is it true that in the Bible "days" sometimes stand for "years"?

A—"Yes. In Ezekiel 4:6 it is written, 'I have appointed thee each day for a year.' This use of days to represent years is found in the apocalyptic prophecies of the Bible.

Q—How could people be saved thousands years before Christ's time when they did not have the gospel?

A—"In Galatians 3:8 we read: 'And the scripture, foreseeing that God would justify the heathen through faith, preached the gospel unto Abraham, saying, In thee shall all nations be blessed.' According to the chronicle in most Bibles, Abraham lived over 1800 years before Christ was born.

Q—Since there was no law before it was given on Mount Sinai, how could God hold people guilty of sin?

A—"According to the words of the apostle Paul in Romans 4:15, 'where no law is, there is no transgression.' But sin was imputed before the written law was given on Mount Sinai (Genesis 4:7; 12:13; 18:20; Numbers 16:38), which proves the existence of law at that time.

Q—Didn't Christ say that the generation living in His day would not pass away before all His predictions would be fulfilled?

A—"The reference is countless to Matthew 24:24. 'Verily I say unto you, This generation shall not pass, till all these things be fulfilled.' It is not the generation that sees the signs mentioned in the preceding verses. After recounting these signs in order, the Savior says: 'So likewise ye, when ye shall see all these things, know that it is near, even at the doors.' Verse 28.

Ed. Note: Address our questions to the BIBLE QUESTION COLUMN, The Voice of Prophecy, Box 55, Los Angeles 33, Calif. Bibles and general interest will be answered in this column as space permits.

TUBELESS TIRE "TAKES IT"

This picture demonstrates how the new puncture-sealing tubeless tire, now on sale in this area for the first time, can "take it"—and not breathe a sigh. In this destructive spike-board test one spike, underneath, has completely pierced the tire and another, right, is about half way through. But air does not leak out of the tire. A gummy inner layer of special rubber which "surrounds" the piercing objects, then closes the hole when they are withdrawn, gives the new tire its self-sealing ability.

Only B. F. GOODRICH makes the self-sealing tubeless tire, now on display at our station. We offer immediate delivery and a liberal trade-in allowance for your old tires. Come in and place your order today.
